Web Developer

I am a passionate and goal-oriented Computer Science Engineering student currently in my 3rd year, specializing in full stack web development and emerging AI technologies. With a strong foundation in programming, data structures, and modern web frameworks like React and Node.js, I enjoy building intuitive, user-centric applications. I'm also exploring the field of Generative AI, contributing to projects that merge creativity with technology.

WORK EXPERIENCE

Oneyes Technologies • Chennai,India • 06/2025 - 06/2025

Gen AI • Internship

As a Generative AI Intern, I contributed to building and experimenting with AI models that generate text, images, and other creative content. My role involved prompt engineering, working with large language models (LLMs) like GPT and LLaMA, and integrating these models into real-world applications such as chatbots and content generators.

Stack Queue Education • Salem,India • 06/2024 - 06/2024

Web Development • Internship

As a Web Development Intern, I completed a focused 15-day internship where I contributed to the design and development of responsive websites and full-stack web applications. I built user interfaces using HTML, CSS, JavaScript, and React, and worked on backend development with Node.js and MongoDB.

EDUCATION

Kongu Vellalar Matric Hr Sec School • Vellakovil

BE in CSE

KSR COLLEGE OF ENGINEERING • Tiruchengode • GPA: 8.2

CERTIFICATIONS

AI-ML Virtual Internship

Google for Developers

PROJECTS

AI Chatbot

This AI-powered chatbot generates personalized 7-day diet plans based on user preferences, dietary goals, and language choice. Built using modern web technologies and integrated with a large language model (LLM) API, the chatbot understands natural language queries and responds with tailored meal plans.

Pharmacy Bot

This project is a command-line based **Pharmacy Chatbot** built entirely in **Java**, designed to assist users with basic medical queries and medicine recommendations. The bot provides information on over-the-counter drugs, usage instructions, and common health issues like fever, cold, headache, and allergies.

Portfllo

This is a responsive **portfolio website** developed using **HTML**, **CSS**, and **JavaScript**, designed to showcase my skills, projects, resume, and contact information in a visually appealing and user-friendly format. The website includes smooth navigation, interactive UI components, animated skill bars, and a downloadable resume feature.

SKILLS
